PROFESSIONAL SUMMARY

Mechanical and Management Engineer with 6+ years of experience across manufacturing, production planning, and industrial operations. Proven ability to lead large production teams, optimize manufacturing workflows, and implement Lean and continuous improvement initiatives. Experienced with CNC machining, supply chain coordination, and ERP-driven operations. Currently completing MSc in Management Engineering at the University of Padua.

CORE SKILLS

- **Manufacturing & Engineering**: CNC Machining • Forging Processes • AutoCAD • MasterCAM • Fusion 360
- **Operations & Process Improvement**: Lean Manufacturing • Six Sigma • Continuous Improvement • Process Mapping • Root Cause Analysis
- **Data & Analytics**: SAP ERP • SQL • Tableau • MATLAB • Excel (Advanced) • Plant Simulation
- **Languages**: English (C1) • Italian (B1) • Urdu (Native) • Hindhi (C1)

EDUCATION

MSc, Management Engineering (Laurea Magistrale in Ingegneria Gestionale)
University of Padua, Italy | Oct 2023 – Mar 2026 | Course Average: 28/30
B.E., Mechanical & Manufacturing Engineering (Laurea in Ingegneria Meccanica e della Produzione)
NED University of Engineering & Technology, Karachi, Pakistan | Dec 2015 – Aug 2019 | GPA: 3.81 / 4.00
FSc. Pre-Engineering – Adamjee Government Science College, Karachi | 2013 – 2015 | 85 %
Matriculation (Computer Science) – Gulshan Public High School, Karachi | 2001 – 2013| 88.9%

PROFESSIONAL EXPERIENCE

Process Engineer – Integraa Holding Srl |Sep 2025 – Mar 2025 |

- Applied **Lean and Kaizen** methods to streamline processes and reduce operational waste
- Performed **process mapping and root cause analysis (RCA)** to resolve workflow inefficiencies
- Led **continuous improvement (CI)** initiatives to enhance productivity and reduce costs
- Assisted with **technical documentation and feasibility analysis** for public sector tenders
- Tracked operational KPIs using **digital monitoring tools** for data-driven improvements.

Lab Intern – University of Padua | Aug 2025- Sep 2025 |

- Assisted in metallurgical testing of aluminum samples
- Conducted microscopy examinations to assess grain structure, defects, and surface characteristics.
- Collaborated with researchers to interpret results and contribute to materials characterization report

Inventory Analyst - Envante Srl | Feb 2025 – July 2025 | (On Call Contract)

- Performing **cycle counts and inventory audits** to ensure accurate stock control
- Applying **5S principles** to organize merchandise in warehouse and retail environments
- Capturing inventory data using **barcode scanners and digital inventory systems**
- Supporting **inventory optimization and stock control** across multiple operational sites

Inventory Analyst – BARCODE Italia Srl |Dec 2023 – Nov 2024|

- **Executing** inventory verification processes, including classification and discrepancy reporting.
- **Performing** stock counting procedures, weighing protocols, and record reconciliation workflows.
- **Monitoring** inventory accuracy through coordinated processes with warehouse and logistics operations.
- **Utilizing** digital data recording systems and conducting on-site inventory assessments at client locations across Italy.

Assistant Manager – Production Planning & Technical Marketing

Pakistan Machine Tool Factory (PMTF), Karachi, Pakistan | Mar 2021 – Sep 2023

• Managed a team of 50+ across CNC and forging departments**, achieving 95% of monthly production goals.**
• Conducted supplier audits and optimized raw material procurement, **reducing supply delays by 12%.**
• Produced technical documentation, 2D/3D part models, and CNC programs using AutoCAD & MasterCAM.
• Delivered technical presentations and represented PMTF at industry exhibitions.
• Implemented process improvements that **increased throughput by 8% in CNC operations**

Trainee Engineer – Maintenance Department

AMROS Pharmaceuticals, Karachi, Pakistan | Nov 2019 – Mar 2021

• Oversaw preventive and corrective maintenance of HVAC systems, production lines, and utilities.
• Developed and tracked monthly maintenance schedules, **reducing unplanned downtime by 15%.**
• Maintained audit-compliant documentation and logs approved by HODs.

Internships (2018 – 2019)

• ***PCSIR – CNC Programming & Operations***: Operated CNC, milling, and lathe machines; applied AutoCAD in modeling/drafting.
• ***NESPAK – HVAC Systems***: Designed HVAC systems using HAP software; reviewed technical drawings and site inspections.
• ***Atlas Engineering – Process Optimization:*** Applied Six Sigma tools to radiator production; proposed ventilation and layout improvements.

CERTIFICATIONS

• Google Data Analytics Professional Certificate (6 Months) – Coursera/Google (2025)
• Digital Transformation & ERP Systems (75h) – University of Padua & Know-how Srl (2024)
• Health & Safety Training (High Risk, 12h) – University of Padua (2025)
• Six Sigma & Lean Manufacturing Workshops (Various)

PUBLICATIONS & CONFERENCES

• Pricing Options with Modified Time-Fractional BS Equation and Samudu Transform (2021)
• Identification of Precipitation Zones within Indus River Basin (2019)
• Speaker – Pakistan Vacuum Technology Conference, IAEA (2022)
• Volunteer – 17th World Wind Energy Conference (2018)
